DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12 May 2006 has been entered.

Specification

2. In view of the amendment filed on 08 May 2006, the Examiner withdraws all objections to the specification from the previous Office Action.

Allowable Subject Matter

3. Claims 3-7 and 15-22 are allowed.

4. The following is an examiner's statement of reasons for allowance: Prior art discloses a bias control circuit that maintains the operation current of an amplifying transistor when there is a fluctuation in temperature or reference voltage. However, prior art fails to disclose a power amplifier with a bias control circuit that works to maintain the operation current of the amplifying transistor whether or not there is fluctuation in the reference voltage and/or temperature where the control circuit includes a first diode made of a bipolar junction transistor, whose collector and base are connected to each other; a second diode made of a bipolar junction transistor whose collector and base are connected to each other, the cathode of the second diode being grounded, and the anode of the second diode being connected to the cathode of the first diode; a second resistor, the first end being supplied with the reference voltage and the second end being connected to the anode of the first diode; and a control transistor, an emitter thereof being grounded and a base thereof being

connected to the anode of the second diode and a collector thereof being connected to a node between the second end of the first resistor and the base of the bias transistor.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
